THE RAILROAD SLAUGHTER.

There seems to be no question as to the use of the terrible slaughter on the Lehigh Valley Railroad last Wednesday. The accident was directly due to the gross and criminal neglect of the persons in charge of the section of the train which ran into the one immediately in advance, in disregarding the danger signals displayed to check its head-

The train was a heavy one, carrying a very large crowd of excursionists. As customary on such-occasions, the train was divided into sections, one following the other at a safe distance. There were six or more of these sections. All these circumstances ought to have prompted such extreme caution render an accident almost impossible, or, at least, very improbable. Yet it is evident that not only were the hands on one section so reckless as to overlook danger signals for which they ought on such an occasion to have kept more than ordinary watch, but that sufficient precaution was not exercised in the distance allowed between the sections.

The lives sacrificed in this awful calamity will probably reach nearly or quite a hundred, besides the injuries inflicted on many who escaped death. What is to be done about it? Is no example to be made of those whose culpable carelessness brought about all this misery and suffering? Is nothing to be done which will compel railroad managers to be more considerate of the safety of passengers hereafter? Is this wholesale, unnecessary butchery to be passed over and forgotten, leaving the evil of incapable and reckless railroad management unchecked? If so, what safety can there be for those who travel by rail?

Mr. B. H. PLANE, a young farmer of Illinois, opposes the application of his wife for divorce on the ground that his marriage to her is null and void. His story is that he was taken from his bed by armed men, carried to his bride's house, and forced at the muzzles of revolvers to go through the ceremony. This certainly seems a very summary way of making a man a Benedict, and as the unwilling husband never lived with his alleged wife; it is probable that the courts will decide that a man cannot be thus compelled to choose between a bride and a bullet.

The Labor party made an imposing demon stration at the Cooper Union last night. If enthusiasm may be taken for an indication of strength, Mr. Coogan, the candidate of the Labor organizations for Mayor, is an adversary not to be despised by the political aspirants to the position. The manner in which the "regular" machines on all sides were handled by the speakers makes it difficult to determine with which old party the supporters of the Labor nominee are the more

The London Times is in a bad position. The belief that its charges against Mr. PAR-NELL and others of the Irish party were based on gross forgeries is growing into conviction, and people are beginning to understand that the Times must have used the false letters knowing them to have been forged. The Attorney-General and Sir HENRY JAMES have thrown up their briefs and abandoned the case of the Times before the Parliamentary Commission.

The stupidity with which the London police are conducting the search for the Whitechapel murderer is illustrated by the fact that the writing on a shutter, "I have murdered four and will murder sixteen more," at the spot where one of the bodies was found, was wiped out by order of the Chief of the force before it could be photographed. Of course a fac simile of the writing might have furmished a valuable clue to the criminal.

THE WORLD achieved a great newspaper success this morning. It published exclusively a full and very interesting summary of Dr. Mackenera's book on the Emperor march's disease and death. The ok has been looked for with intense

curiosity and THE WORLD has covered the POINTS FOR THE GUESSERS. ntire work, leaving its contemporaries to follow in its track with second-hand news, as

OUR AUTOGRAPH COLLECTION.

JERSEY CITY POLITICS. There are five local candidates in the field now, all Democrats. They are Congressman McAdoc and four prospective Assemblymen-Donnelly, of

the Third; Heppenheimer, of the Fourth; Farrell, of the Eighth, and Short, of the Tenth. Florist John Reed is talked about as the Repul ican candidate for the Assembly in the Sixth.

As yet the Republicans have settled-on no nom nee for Congress. Seedsman Peter Henderson is the favorite candidate of the talkers. Lawyer M. T. Newbold and State Treasurer John J. Toffey are also in the race.

The First District Republicans are having lots o fun, all by themselves. Four of them want the Assembly nomination, and each threatens to run independently if he doesn't get it.

Jeweller Frank Demmert, who sets Minnie Palmer's diamonds, will probably be the Demo cratic candidate in the Fifth. The present Assem blyman, Brown, will oppose him.

The man at Taylor's Hotel who talks about anything but politics nowadays is regarded with dis-

Col. " Sam " Dickinson is hustling. He mus best Alderman Donnelly in the Third, or auffer a sort of political deats.

The local parades of this campaign have never been excelled. Every club glories in brilliant uni The purchase of banners by leading politicians is

another new wrinkle. Hardly a man of them has not been "soaked" for a banner, demonstration

Corporation Attorney Hadapeth has a sure thing of the Assembly nomination of the Sixth District Democrats. His election is just as sure.

Matters are slow in the Fourth District. Now that Col. Heppenheimer has overcome his op-ponents in the fight for the Assembly nomination, the excitement is about over.

WORLDLINGS.

Mrs. Rebecca Seth, who celebrated the 100th anliversary of her birth at Baldwin's Factory, Md., a few days ago, has fifty grandchildren and thirty-one

A large meteor passed over Minden, La., recently, lighting up the sky for several minutes so brightly that one could see to read. It exploded with a report like that of a cannon. Sydney Sprague, a farmer living near Wapake

reta, O., placed \$475 in a stove for safekeeping. Some one built a fire in the stove while he was away from home, and the next money he gets he will put in a savings bank. Mrs. J. B. Haggip, wife of the wealthy California

turfman, has a beautiful collection of diamonds, some of which are considered the finest in this country. She also owns the rare ruby presented by King Louis of Bavaria to Lola Montez. It i valued at \$10,000.

While searching through his father's effects Ticket Agent Meffett, of Knoxville, Tenn., found gourd over 100 years old. It contained many old papers, among them a note from Davy Crockett, ayable to William Moffett, for one shilling and three pence for a barrel of whiskey and a keg of

The Mission Man Said They Had Reformed About 1 o'clock this morning Charlotte and Theresa Rezegene and Emily Delchanty, connected resa Rezegene and Emily Delenanty, connected with the Florence Mission, a Magdalen institution on Bleecker street, were loltering on the street when Policeman McCarthy arrested them. Squt. Crittenden, of the Mission, followed to the station-liouse and vouched for the girls, declaring that they had attended religious services and had reformed, whereupon Sergt. Moloney discharged them.

hem.
The Florence Mission is a charitable institution which seeks the reformation of wayward women, and was started by Druggist Crittenden. A be-loved dangater died, and as a memorial to her he established the mission.

The Quickest Way.

(From the Lincoln Journal.)
"How long does it take to acquire shorthand?" ** A year or so by the usual systems. " " Is there no quicker way !"
" Well, you might foo! with a circular saw."

Among the Workers. The Building Traces Section meets to-night. The General Assembly of the Knights of Labor nects at Indianapolis this month. Twenty thousand Yorkshire colliers have de-manded a 10 per cent. advance in wages, and threaten to strike unless they get it. A private dispatch from Havana announces the settlement of the great strike of cigar-makers, and it is believed to be in favor of the men. Twenty thousand hands were out at one time. The discharge of union men and attempted reduction of wages in several factories were the causes of the strike.

Just why the Tobacco Trade's Section should send out a proclamation werning the labor candidate for Mayor, Mr. Coogan, that he is in the hands of designing labor leaders does not appear. That section scarcely ever gets a quorum of seven delegates together and remited some people of the London tailors who proclaimed "We, the people of England," &c.

WINTER'S THREE COLDEST DAYS EACH YEAR OF THE LAST DECADE.

If Your Guess In to Be Pounded on th Wenther's Ancient History, Here Are Your Bases bergt. Dunn, of the Signal Office, Is to Compete, but Nobedy Who Reads Ills Predictions Fears Illim.

On the occasion of its first anniversary Tur

VENING WORLD announced that it would give prize of \$100 in gold to the first person ending to this office the dates of the three coldest days during the winter of 1888-9. In order to be just and fair, and to give a chance to those whose guesses are to depend in any way on the ancient history of the weather, there has been prepared for publication a list giving the coldest three days of each year during the past decade. For the information THE EVENING WORLD is indebted to Sergt. Dunn, of the Weather Bureau, who

will himself participate in the guessing. Here is the list. 1878-3d January, 9 degrees above; 3d February, 10 degrees above; 25th December, 12 degree

3d January, 3 degrees below; 15th February, 8 degrees above; 27th December, 11 degrees above.

1880—31st December, 6 degrees below; 2d February, 10 degrees above; 25th March, 16 degrees 1881—2d February, 1 degree above; 1st January, of degrees above; Sist December, 25 degrees

degrees above; Mat December, 25 degrees above.

1952—24th January, 1 degree below; 8th December, 11 degrees above; 4th and 5th February, 18
1863—25d December and 23d January, 4 degrees above; 5th March, 18 degrees above.

1854—20th December, 1 degrees above; 29th February, 2 degrees above; ist March, 5 degrees above.

above. -11th February, zero; 29th January, 5 degree

above: 30th March, 6 degrees above, 1886—5th February, 2 degrees below; 13th January, 3 degrees above, 18th January, 5 degrees above; 1st December, 19th January, 6 degrees above; 1st December, 12 degrees above; 30th March, 16 degrees above.

Of this proposed weather-guessing Sergt. "It's a big idea, and one that will take.

"It's a big idea, and one that will take. Almost every one imagines himself or herself a prophet."
"Will you take part in the guessing?"
"Oh, yes; of course I will. One stands just as much show of winning as another. Then, again, the temperature is deceptive, and where we have a very cold day one year we cannot certainly expect it to be just as cold that day the following year.
"Then seven may guess two and miss the "Then some may guess two and miss the third day. It's very interesting, and some one seems bound to get the prize. Look out for my prediction."

Then, turning away, the Sergeant grasped

Then, turning away, the Sergeant grasped a crank labelled "rain" and began churning, with the result noticed to-day.

The Contest Thickens.

Precisely sixty-three weather guesses can n the morning mail and the number is likely to increase with each distribution from the Post-Office. One condition of the contest is overlocked by many of the competitors, i. e. the predictions must be made on postal cards. Here are a few of the guesses:

Aronses Considerable Thinking. To the Editor of The Evening World :

Your contest as to who will guess the coldest three days this winter is a good one to make people think. I guess Jan. 5, Jan. 24 and Feb. 11 will be the coldest, Hoping I "get there," SAMUEL LUDLOW, jr., 757 Sixth Street, city.

A Very Funny Young Man.

To the Editor of The Evening World:

My prognostication is that the three days this Winter on which the mercury reaches the lowest point will be the three coldest days of the season. C. H. Rookes. 19 Park Row, New York City, Oct. 11. Yes, They Will Be Quite Cold.

I prophesy that the coldest three days will be Nov. 7, 1888; Jan. 2, 1889, and March 4 1889, respectively—I mean for the defeated candidates in the elections.

NOM DE PLUME.

A Fifth Avenue Doctor's Prophecy.

To the Editor of The Evening World:
In answer to the prize of \$100 in gold, offered in last evening's World, I predict the following to be the three coldest days of the scason, viz.: Dec. 27, 1888, and Jan. 16 and 17, 1889. F. Bedford, M. D. 66 Fifth avenue, New York City, Oct. 11.

A Notification.

I, Charles Kaiser, do hereby notify you that the three coldest days this Winter shall be Dec. 23, 1888, Jan. 19 and March 18, 1889, Charles Kaiser, Office Boy, 535 Court-landt avenue and One Hundred and Fortyninth street, Another Political Prophecy

to the Editor of The Evening World: The three coldest days this winter for the Republicans and Mr. H. will be Nov. 6, 1888, Jan. 1, 1889, and March 4, 1889. Box 2542. City. T. E. GLEASON.

A Guess from Bond Street.

To the Editor of the Evening World:

My choice of the coldest three days this winter is as follows : Dec. 20, 1888; Jan. 22, 1889; Feb. 1, 1889. George Martin, 28 Bond street,

Has Been Tried Before.

To the Editor of The Evening World:
I guess Jan. 1, Feb. 4 and March 7 as the coldest three days. Your weather contest is New York, Oct. 11. a very interesting and novel one. It is more ver very original.

[THE EVENING WORLD does not claim any THE EVENING WORLD does not claim any originality on account of this particular contest. It is an interesting but not a novel idea. Although it has never been tried in New York, it was operated very successfully by a London weekly a year or two ago. Several such contests have also been held in the West, notably of late by that sprightly newspaper, the Detroit Journal. The EVENING WORLD is not so poor in original ideas that it seeks undue credit.—Ed.]

Paid Dearly for His Modesty.

Deacon (horrified)-Bless me, Maria! what under the sun have you been tattooing yourself in that vulgar fashion for?
Wife (fretfully)—Well, it's all your fault. It's that horrid striped bathlag-suit with the high neck and long sleeves that you bought me. The colors ran and I can't wash it off now.

MEGLEOT KILLS INJURIES; REVENUE IN reases them. A neglected cold increases its in-urious effects on the system till consumption finally

FROM THE CITY'S WHIRL.

It Cost This Girl \$2 for Perty Minutes o

A very dashing young woman sailed into a bonnetry, so to speak, and asked to be shown some hats. The woman who handled the bonnets trotted out first one dozen then another dozen. The customer was fastidious.

That one was very pretty, if it weren't for those pins. If that piece of yellow ribbon wasn't there she would like that one. If this one had more jet trimming it would be just the thing. That one she liked immensely, but it wouldn't suit a single wrap she had.

The ubiquitous whirl collector chanced to be there, and he is prepared to state solemnly that the young woman looked at thirty-five hats, every one as different as possible from any other.

thirty-live hats, every one as united to a sible from any other.

At last the jaded saleswoman brought out a hat in two or three shades of green.

"How do you like that, miss?" she said, running her hand in the crown of the bonnet and holding it out admiringly.

"Is that a Paris bonnet?" demanded the dashing young woman.

dashing young woman.
"No, miss; but it is an exact copy of a
Parisian hat," answered the martyr to bonnets. I should think so. It has got copy

"I should think so. It has got 'copy' written all over it. While the bonnet negotiations were progressing, or while they were in process, for it was hard to tell whether they were progressing at all, a stout middle-aged lady had come in and quietly seated herself.

"Will you show me that bonnet, please?" she said, pointing to one of four in front of the young woman.

The salewoman was about to do so, when that fastidious and exacting piece of feminine construction said calmly:

construction said calmly:

"I have not yet decided which of these four I will take. You must leave them till I make up my mind."

The stout lady said nothing and the saleswoman stood still, while the girl tried on each last scool.

What is the price of this?" she said, indi

"What is the price of this?" she said, indicating a very Frenchy bonnet.
"Forty dollars," said the saleswoman.
"You may send it to my address," the young woman said, and briskly counted out the price from a wad of bills, which she had in her pocket. Then she waltzed out.
"Let me try on that one," said the stout lady, "to see if it fits. Never mind the glass," she added, as the saleswoman was about to get her a hand mirror. "I saw it on the young woman, and if it fits it will do nicely." nicely."
It fitted and was bought. The young woman had been forty minutes, the stout lady five, in purchasing a bonnet.
"You'd sconer sell her a bonnet than sell one to that girl, wouldn't you?" said the

reporter.

"You can bet I would. I tucked \$2 on the price of that girl's bonnet for the bother she gave." *aid the saleswoman, with ven-

The Appearance of the Markets Tells Tha Fall Is Here.

If there were no other ways of knowing that the Fall of the year had arrived, a trip through any of the large city markets would ell the visitor that it had.

tell the visitor that it had.

During the past week the appearance of the market stands has brightened wonderfully. In the summer the stands don't close altogether, but all of the stock is put away where it will not spoil, and the market presents a descreted appearance. Now, everything is out in full view of all who pass.

Meat can be seen hanging up on heavy hooks, and on all the fish stands there are huge piles of specimens of the finny tribe. Soft-shell crabs have disappeared, but in their place are their hard-shelled brethren. Instead of clams, fine, large, juicy oysters can be seen on all sides.

The vegetable and fruit stands present the prettiest appearance. With their mounds of produce piled up in gorgeous array they make a very enticing picture.

nake a very enticing picture.

The fruit stands show off a fine assortment of grapes. There are Cornichons, Tokays,
Malagas and all the others in the market
now, and inany of them are sent here by
shippers in California.

There is a great supply of crab apples, and
figs and chestnuts are beginning to arrive.

Accident Insurance Worked on the Nickel-

and-Slot Plup. The "drop a nickel in the slot" fiend has put another specimen of his ingenuity on exhibition. This time you get neither a cigar, chewing gum nor candy. What you do get is a piece of paper, on which is printed a blank accident insurance policy, which you may fill

accident insurance policy, which you may fill in at your leisure.

The promoters of this system of insurance are said to be the Employers' Liability As-surance Corporation, of London, England. Each policy is subject to certain condi-tions, and the limit to each person is ten tickets.

Genuine Burglars on the Stage.

To the Editor of The Evening World;
I see it stated that two genuine burglars, or cracksmen, would actually illustrate their calling by burglarizing a safe in a play called "The Stowawsy," at Niblo's Garden next week. It is impossible to realize that such an occurrence will be permitted by the police officials as well as difficult to understand how a manager of a theatre of such high standing as Niblo's will countenance such a thing. Of course it will be a profitable venture for the show for the reason that people always flock to see anything savoring of sensationalism. But reflect for a moment on the enormity of putting up a genuine robber for a here: think how his influence will operate on the minds of our young—they, of all others, will revere him as an object of here worship. play called "The Stowaway," at Niblo's Gar-

ero worship.
Why, if this is countenanced there is no telling into what depth of iniquity some of the spectators may be led. In the name of respectability, virtue and society, I beseech the aid of your mighty paper to stop this de-stroyer of future happiness and stage teach-ings. P. S. McK.

The Young Men's Democratic Club of the Seven-teenth Assembly District meets this evening at Michael's Hall, 342 West Forty-second street. All

young men are invited. The Peter Kelahar Association will hold a meeting to-night at its rooms 61 South street, to indose the someation of liugh J. Grant for Mayor. Jas. A. Osborne and Major Fowell will speak. Speaker John G. Carlisic, Secretary Fairchild and D. A. Boody will address the cow.cown Cleveland and Thurman clubs from the Wall street liazza of the Sub-Treasury to-morrow afternoon. There will be a parade of these clubs of business men, and it is expected that fully 20,000 men will be in line.

men, and it is expected that fully 20,000 men will be in line.

The business men will man each polline-place in the city with workers for Covelind and Thurman, and on the Saturday before the election will parade from Wall street to Madison Square. The banner of the consolidated Clubs has not yet been hung, electric-light wires interfering with the hanging in the place selected.

The central division of the Wholesale Dry Goods Cleveland and Thurman Club will have a grand parade to-morrow, assembling at Broome street and Broadway at 1.15 F. M. The line of march will be down Broadway to Wall street to participate in the mass-meeting at the Sub-Treasury.

The Cleveland and thurman Campaign Club, of the Twenty-second Election District of the Fourth Assembly District, thet at 500 Cherry street last night and indorned the Tamman Hall ticket. The following officers were elected: P. J. Eagan, President; C. F. Casey, Treasurer; A. Harrigan, J. J. Dillon and J. Caldon, Secretaries, and M. Carney, Vice-President.

No Pain

No rack, no strain, no pain, accompanies administra-tion of Hood's Barsapariila. This mediat coss actually strain out impurities, removes obstructions and opens the natural outlets of the system, curing carofula. fyspepsis, &c.

"I was all run down and unfit for business.

Raysparilis built me right up so that I was soon able to resume work." D. W. Brazz, 4 Martin et., Albany, N. Y. Hood's Sarsaparille is sold by all druggists. \$1; six for \$5. Prepared by C. I. HOOD & OO., Lovell, Mass.

THE WHITECHAPEL HORRORS

BRIEF-SUMMARY OF PARTICULARS OF THE EIGHT MURDERS.

low Theories by Correspondents as to the Motive of the Murderer-A Not Pleasant Suggestion that the Bloody Work May Be that of a Murderess-Are the Crimes

A number of letters have been received by THE EVENING WORLD from those who desire to submit their theories, inquiring for some particulars as to the Whitechapel murders from the beginning. In response the following brief summary of the eight cases already on record is published :

No. 1. A little more than a year ago, woman of the town was murdered in White chapel. Her throat was cut and her body terribly mutilated, as described in the case of

terribly mutilated, as described in the case of the recent murders.

No. 2. Aug. 7, 1888, the body of Martha Turner, a hawker, was found on the first floor landing of the George Ford Buildings, Commercial street, Spitalfields. The head was nearly severed from the body and the were twenty-nine stal, wounds, beside the

was nearly severed from the body and there were twenty-nine stab-wounds, beside the usual mutilation. The murder was committed between midnight and dawn.

No. 3. Mary Ann Nichols, aged forty-two, a woman of the lowest class, was the third victim, killed and mutilated like the rest. Her body was found in the street in Buck's row. Whitechapel, in the early morning of Friday, Aug. 31. She had evidently been killed somewhere else and her body carried where it was found, for little blood was found where the body lay.

where it was found, for little blood was found where the body lay.

No. 4. Just a week after the killing of the Nichols woman Aonie Chapman, aged fortyfive, another fallen woman, was similarly nurdered and mutilated. Her body was discovered in the back yard of 29 Hanbury stret, 100 yards from the place where the Nichols woman's remains were found. She must have been butchered after 5 A. M., for she was drinking with a man, probably her murderer, at that hour in a public house near by On the wall near her body was written in chalk: "Five; 15 more, then I give myself up."

self up."

No. 5. On Sunday, Sept. 23, a young woman was murdered at Gateshead, near Newcastle-on-the-Tyne. All the circumstances, even to on-the-Tyne.

on-the-Tyne. All the circumstances, even to the peculiar mutilation of the body, point to the Whitechapel fiend as the murderer.

No. 6. Another Whitechapel strumpet—
"Hippy Lip Annie, forty years old—was murdered in Berners street on Sunday, Sept. 36, at about 1 A. M. Her throat was cut, but there was no slashing of the remains. The body was warm when found, and the murderer had been apparently frightened, and arm away without accomplishing his herrible. an away without accomplishing his horrible

ran away without accomplishing his horrible object.

No. 7. Fifteen minutes after the butchery of Hippy Lip Annie, the mutilated body of another victim, a degraded woman of the Whitechapel district, was discovered in the south-west corner of Mitre Square.

No. 8. On the day following the highly decomposed remains of a woman, shockingly mutilated and giving evidence of having been killed by the Whitechapel murderer, was found on the site of the projected Meiropolitan Opera-House on the Thames Embankment. This was evidently one of the "five" to which the fiend referred when he chalked the legend over the body of Annie Chapman in Hanbury street on Sept. 8.

In It Due to Voudociam

whatever the causes which unseated the reason, there seems to be a unanimity of opinion that the Whitechapel assassin is

This may for may not be so. To one who has lived among the ignorant negroes of the South, however, and knows how thoroughly the minds of some are dominated by the

the minds of some are dominated by the Voudoo priestesses, one who has witnessed atrocities committed in the name of this heathenish religion, another theory than that of insanity suggests itself at once.

Is it not extremely probable that this assassin, who so mutilates his victims' remains, is a superstitious negro in search of some horrible fetich prescribed by a voudoo doctress? I think it extremely probable.

CREOLE.

Murderer or Murderess ? I see that all the theorists unite in making man responsible for the Whitechapel murders. Why a man? My idea is that the assassin is a fanatical woman, bent on reveng-ing the wrongs of her sex upon the fallen creatures who have brought disgrace upon it. Because the police are looking for a man they do not find the woman. D. F.

To the Editor of The Evening World: What do you think of the theory that the Whitechapel murders were committed by a

medical student of delicate organism, gone mad over the terrible work of the dissecting-table.

J. B. Cox.

CITIZEN TRAIN'S EXPERIENCE. He Tells a Sad Story of Eleven Deaths is

His Family by Yellow Fever. In a lecture for the benefit of the yellow fever sufferers which he generously gave in Clarendon Hall last night, George Francis

Clarendon Hall last night, George Francis
Train told a pathetic story of his family's experience with Yellow Jack,
When but four years old he said he and his parents were in New Orleans. The great plague broke out, killing 300 people every day. His little sister Lulu died, and then his sister Ellen. Two days later his mother fell a victim, and the next day his nurse died.

Seven other members of his family died in the epidemic.

Mr. Train speaks on politics in Clarendon Hall to-night. In the Conservatory.

Mr. Chesley-Quick, your decision, Louise! Miss De Leigh-Why do you hurry me so? says that a comet is approaching the earth at a rate of 3,000,000 miles a day, and—'er! abom!— I think I hear your mother coming, too.

CHICKERING HALL.

CLOSING LECTURE OF THE FREE COURSE BY DR. GREENE, OF 35 WEST 14TH ST., NEW YORK.

Private Lecture to Women-Some Plain Traths Which Women Will Do Well to Ponder Upon.

another of his wonderfully popular free lectures in Chickering Hall, this time the lecture being private for women, and a packed house greated the famous phy-sician. What he said was of the greatest interest, and we give a brief report of the lecture in order that the thousands of women who were not so fortunate as to be present, and yet who have need of the information, may at least gain some knowledge or the subjects

healthy children, must be healthy themselves, and woman's first duty, to herself se well as to her children is to maintain a condition of sound and perfect health Women are great sufferers from nervousness, weaks servous prostration and exhaustion. A lowered condi tion of nervous vitality, with more or less physical and nervous prostration, will be found among young, mid-

die-aged and old women, and in all ranks of society.

'Women often droop and languish under household cares, family bereavements, responsibilities and work which never ends. Here lies the great strain upon the system of women; here is the cause why so large a pro portion of our women complain of being weak, nervous aired and exhausted. They have little or no rest; the life is one continual round of work-duties here, duta there, duties without number

there, duties without number,

"What wonder that such women go to bed at night
fatigued and wake tired and unrefreshed in the morning" What wonder that they become worn out, so to speak, in nerve and vital power? What wonder that they have great weakness, exhaustion, pains in the back and imbs, together with the distressing female complaints which are always caused by the loss of vital strength and vigor? Yet they keep about their work long after they realize that they ought to call themselves sick and re-main in bed, held up by the thought that they must do heir duty, and so they continue to work up

Fading Under the Wenkening Influence of these diseases, ignorant of the real cause of their de clining health. There will at first be a tired, languis saling, with a sense of exhaustion upon waking in th f endurance; there is often a bad taste in the mouth, with a faintness or sinking at the stomach; there will b loss of appetite, or it will become variable, and digestion will become impaired. The patient gradually becomes nervous, rectless and irritable, and there is often more or less loss of sleep, with prostration instead of recupera

on from the night's rest. tion from the night's rest.

"Those symptoms will, in many cases, be attended by pains in the side, back or abdomen, and the nervousness and sense of weakness will become more and more marked, until the sufferer declares she is tired all the time, every movement or exertion being an effort. Then follow the long train of disagreeable and often paints gestion, inflammation, ulceration or ovarian difficulties These symptoms will be followed by gradually confirme

"Nothing can be more absurd than to believe, as man to effect a cure does not by any means prove that the disease cannot be cured by a physician who has made special study and investigation of such chronic difficul-ties. No physician can be alike skilful in the cure of al classes of diseases, and the general practitioner ha seither the time por the facilities to give that investig neither the time nor the facilities to give that investiga-tion and study necessary to acquire the proper knowl-edge and treatment of these chronic affections. It is the specialist who, by research and practical experience among thousands of similar cases, has an absolute Knowledge of the Exact Conditions,

and the necessary remedies to cure, to whom suffere hould apply for treatment.

"Again, the treatment used by the ordinary physicis is of a very harsh nature, which not only does no good, but often proves injurious in its effects, leaving the patient in a worse condition than before. All this is wrong; the treatment and remedies used should be mild and afficacious. Nature has bountifully provided harmess vegetable remedies for just these conditions, an ender their restorative effects the digestive and a lative powers are improved, the blood cleaned purified, the nervous system invigorated, the loc symptoms gradually dissappear, and health and strengthake the place of weakness and prostration."

Dr. Greene is certainly an authority upon these subjects, having made this class of diseases, their cause

and cure, a special study. He has, moreover, an usual opportunity to sain a most thorough understan ing of their nature and the diseased conditions which attend such difficulties, together with a perfect knowledge of their treatment and cure, by means of the many thousand cases which, from his large and widespread ractice, are constantly under his professional care. The failure of ordinary physicians to cure disease eculiar to females is a subject of great regret. Man

and many a woman has become Completely Discouraged by repeated failures repeated failures to be cured, and many from such curagement have come to almost abandon all hope The remarkable ancess in ouring at the professional work of this eminent specialist all the more prominent, and places him in the very first rank of physicians who make a specialty of this class

Greene's remarkable success in curing these diseases is due to his great skill as a physician, it is no less a fact that the thousands of women who owe their restora-tion from these distressing affections to his treatment owe it, in part at least, to the wonderful vegetable remedies which he uses. These harmless remedies ar Nature's true medicines, and are really wonderful i their soothing, heating and strengthening powers. their results. They build up the general health an

the exhausted system. In this manner and by these remedies thousands of women have been and are being cured, and no one suffering from these distressing emale complaints should delay in consulting Dr reene if a cure is desired. Another great advantage to sufferers is the fact that Dr. Greens can be consulted free. Consultation and advice are in all cases free of charge, either personally or by letter, at the office, 35 West 14th at., New York. This renders it possible for all to obtain a cure at the

strength, tone up and invigorate the nerves, cure a

ocal female troubles and restors vitality and energy

This readers it possible for all to obtain a cure at the cost of only the necessary medicines. The Doctor's important new book, "Facts Worth Knowing," will be malled free to any address.

We have taken occasion in these columns several times to report the Doctor's lectures and to speak in the highest terms of his mode of treatment. This we should not do were we not satisfied as to the Doctor's marvelous skill as a physician and the constantly demo trated beneficial results of his wonderful medicines. We therefore feel that in recommending these suffering from any form of female complaints to adopt his treat ment by harmless vegetable remedies we are advising them for their best good, and feel confident that a perect and permanent cure will result.

MANY PAID COURT THERE.

The Special Sale at Ridleys' Proves a Mag-

The opening of the special sale of fall goods at Ridley & Co.'s, at Grand and Allen streets, yesterday, was an opportunity for seeing and purchasing Mr. Chesiey-For two ressons. Prof. Barnard which the fair sex seized upon with avidity. A systhat a comet is approaching the earth at a handsome parior was fitted up for the occasion and in it Mme. Bedington, the firm's modiste, held court throughout the day. Around the room in glass-cases the wonders of the milliner's art are displayed. The Langtry toque seemed to attract

displayed. The Langtry toque seemed to attract the most favorable comment. It is a neat turban of velvet, trimmed with Isce and surmounted with signette, and ornamented in front with a cluster of humaning-birds. In calidren's headgear there is also an array of novelties.

The fur department is rich in scalskin and fur wraps, newmarkets, English waiking jackets and sacques, besides muffs and boas of various skins.

The dress goods, however, divided the honors of the day with the millinery, and admiring fair ones clustered about the wonderful costumes displayed, diling the air with exclamations of delight. Gowns and cloaks, bonnets and hats, latest styles and most excellent materials, were topics of which the throng never wearied.

most excellent materials, were topics of which the throng never wearied.

Bric-a-orac may be had at Ridleys', too, and this department, together with those for the sale of gentlemen's furnishing goods, linen, hoslery, and hardware, came in for a fair share of attention yesterday, and doubtiess will prove attractive throughout the continuance of the special sale this week.
